MTBL is a Web based application, The special focus on "Customer Expectation",This project is about the Customer Expectation from On-Line marketing,various dimensins have been mentioned in this project regarding effectiveness of internet marketing.

Project: CEMHS SALES

Client   : TVS Chennai

CEMHS is a Web based application, The special focus on "Customer Expectation",This project is about the Customer Expectation from On-Line marketing,various dimensins have been mentioned in this project regarding effectiveness of internet marketing.

Project: Fleet Management System **Client**   : TVS, Chennai

Fleet management solutions can add value in a number of ways, such as providing your business with information on fuel consumption, driver and vehicle behaviour. With our system, you can also monitor this data remotely from a central location such as your head office.

Project: HRMS(human Resource Management System) : Bluebase , Chennai

HRMS software handle HR activities is a common denominator among successful companies; there are few businesses in any industry that have succeeded without some sort of HR automation in place. Mobile accessibility has transformed modern HR departments, putting information and task management at the fingertips of employees and managers. HRMS has helped to effectively break down bureaucracy and "flatten" many organizations. .

Project: Ticketing Management System   : Bluebase , Chennai

The task management system is an automated support tool to be used by administrative staff of various departments. Currently all work tasks requests from faculty are handled manually over the telephone. The task management system automates the process by streamlining the handling of the work tasks requests thereby reducing the manual intervention..

Project: Hospital Management System : Bluebase , Chennai

HMIS is implemented in a **hospital** for managing patient care and related administrative functions. It has the potential to improve the efficiency of overall **system** through automation and generates necessary reports for managing operations, performance, quality, planning, decision-making and reporting for projects.
